*Prader-Willi Syndrome
(PWS) is a non-hereditary
genetic disorder affecting
one in 15,000 people.
Common traits of PWS
include (literally)
insatiable hunger
complicated by a very
slow metabolism, learning
disabilities, speech and
developmental delays,
severe behavioral issues
and weak muscle tone.*

I want to send my deepest gratitude to all our family, friends and benefactors for your incredible support of The 14th Annual Molly's Irish Pub Charity Golf Tournament benefiting Texas Prader-Willi Association. Your support means the world to us and keeps our organization moving forward with our mission to help all those affected by Prader-Willi Syndrome.

The tournament was October 7, with 154 golfers! I am enormously grateful to Molly's Irish Pub, Olde City Pub, golfers, sponsors, auction participants, volunteers, and donors. We raised over \$100,000.00! Your generosity ensures that our organization can strive for awareness, education, and acceptance of our loved ones with this rare and extraordinarily complex disorder.

The Molly's Irish Pub Charity Golf Tournament enables us to:

- Hold the amazing People With Smiles Camp every year
- Open two PWS-specific group homes in Conroe
- Host the TXPWA Bi-annual Statewide Conference
- Engage with a lobbyist company to continue our journey toward getting PWS recognized as a qualifying condition in the state of Texas so families will qualify with much-needed benefits beginning at birth

Your generosity is more than a financial gift; it's an offering of hope that shows all those families affected by Prader-Willi Syndrome that they are surrounded by a community that cares deeply about their well-being. Every dollar matters and you can see your generosity is being put to good use. I cannot thank you enough for supporting our organization that is so close to my heart.
