*Prader-Willi Syndrome (PWS) is a non-hereditary genetic disorder affecting one in 15,000 people. Common traits of PWS include (literally) insatiable hunger complicated by a very slow metabolism, learning disabilities, speech and developmental delays, severe behavioral issues and weak muscle tone.*

Dear Friends, Family, and Benefactors,

From the bottom of our hearts, thank you.

I want to express my deepest gratitude for your incredible support of Molly's Pub 15th Annual Charity Golf Tournament benefiting Texas Prader-Willi Association. Your compassionate generosity and unwavering support made our event amazing!!

We were blessed with a sunny, Fall day, sending out 32 golf teams! I am extremely grateful to our sponsor, Molly's Irish Pub, Olde City Pub, and their amazing staff. Thank you to family, friends, sponsors, golfers, volunteers, generous donators, hole sponsors and others who supported our fundraising efforts in any way. I'm thrilled with the level of kindness and commitment we received again this year.

In July, we held our 15th Annual People With Smiles (PWS) Camp at Morgan's Wonderland Camp in San Antonio. The kids had five fun-filled days, while their families enjoyed a well-needed respite. The two PWS-specific group homes in Conroe are at capacity with waiting lists. Our next initiative is to pursue vocational opportunities, so the kids have purposeful, rewarding jobs. Most importantly this past year, the FDA approved VYKAT XR—the first-ever drug directed at hyperphagia, from Soleno Therapeutics. This is a remarkable milestone for all affected by PWS as it targets the extreme hunger, constant thoughts about food and relentless drive to eat, that cannot be satisfied with food. TXPWA's next bi-annual statewide conference is April 16, 2027, at Cook Children's in Ft. Worth.

You can see that every dollar matters to us!! With your help, we are changing lives—bringing hope, dignity, and joy to those affected by PWS. We are so grateful for all the support!! Every act of generosity brings us closer to a brighter future.
